

LAVTHERA
PREMIUM DESIGNER TOWEL RADIATORS

2026 COLLECTION

Heat transformed *into design.*

DECORATIVE HEATING SOLUTIONS / MANISA, TURKIYE

THE LAVTHERA APPROACH

Timeless design. *Reliable performance.*

We unite Turkish engineering, advanced manufacturing technologies and a European design vision to add lasting value to modern living spaces.

OUR MISSION

To design and manufacture premium towel radiators that unite timeless design, superior quality and dependable performance. Through continuous improvement and a customer-focused approach, we create lasting value.

OUR VISION

To become one of Europe's leading decorative towel radiator brands through excellence in design, quality and manufacturing, bringing Turkish production strength to global markets as a trusted brand.

*True luxury lies in simplicity, uncompromising quality
and timeless design.*

Our Values

-
- | | | |
|----|------------------------|---|
| 01 | Uncompromising Quality | Superior materials, precise production and rigorous quality control. |
| 02 | Design-Led Approach | We bring aesthetics and functionality together in perfect balance. |
| 03 | Continuous Innovation | We continually invest in technology, manufacturing and product development. |
| 04 | Reliability | We build long-term relationships through trust and professionalism. |
| 05 | Sustainability | We create future value through environmentally responsible manufacturing. |
-

Ten expressions of warmth.

01 / 10

DESIGNER TOWEL RADIATOR

Vento

An efficient, enduring interpretation of classic lines.

Flat and oval profile options, a broad size range and balanced heat transfer make it a versatile solution for bathroom and kitchen projects.

SAMPLE SIZE

300 x 600 mm

PROFILE / TUBE COUNT

11

HEAT OUTPUT $\Delta T30 / 50 / 60$

102 / 183 / 225 W

WEIGHT

3.30 kg

WATER VOLUME

1.93 L

MAX. PRESSURE

8 BAR

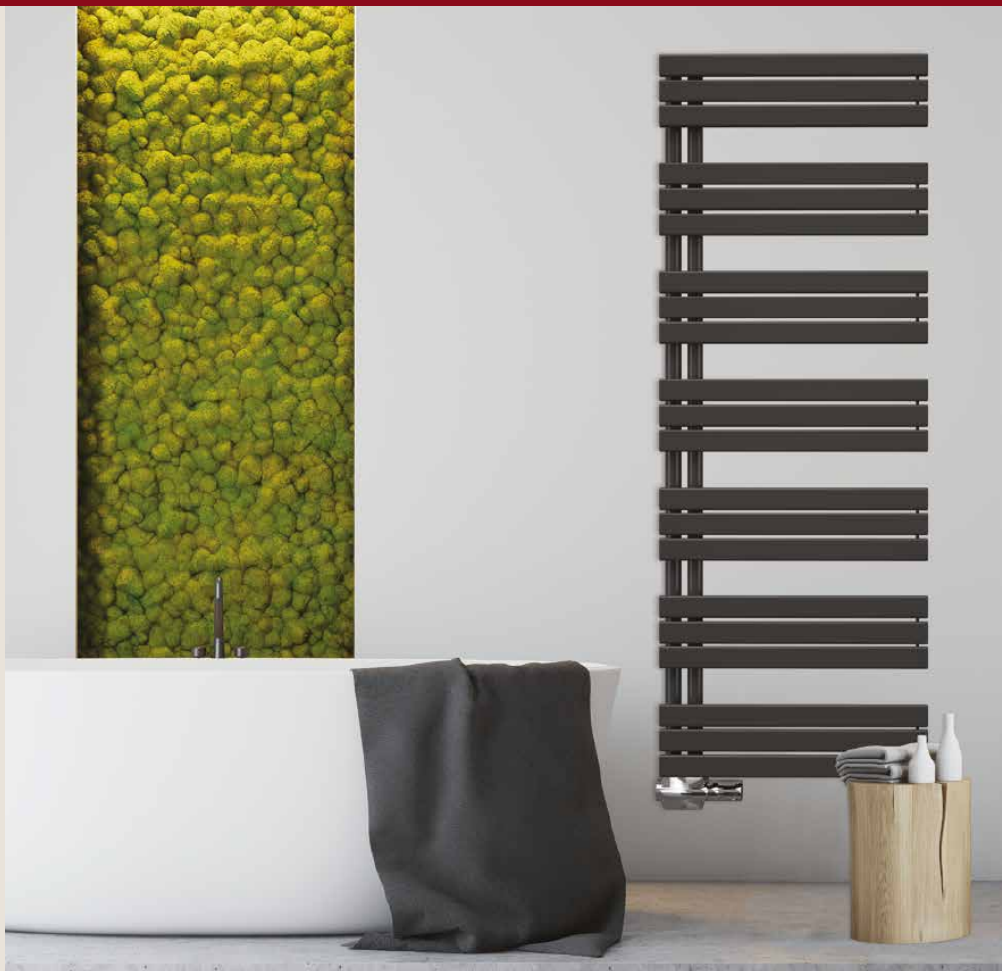

ELECTRIC OPERATION

Compatible

FINISH

RAL 9016, RAL 7016, Chrome

Technical values refer to the selected sample size. Contact our technical team for project-specific dimensions and capacity.

02 / 10

SYMMETRICAL TOWEL RADIATOR

Aura

Symmetrical form with a strong architectural rhythm.

Its easy-to-clean symmetrical structure, open layout for towels and broad range of sizes were developed for contemporary bathrooms.

SAMPLE SIZE

400 x 1150 mm

PROFILE / TUBE COUNT

15

HEAT OUTPUT $\Delta T30 / 50 / 60$

254 / 461 / 569 W

WEIGHT

12.38 kg

03 / 10

PREMIUM TOWEL RADIATOR

Velış

A refined interpretation of symmetrical design.

Dense, refined proportions, balanced surfaces and multiple height options create a distinctive presence in premium bathroom projects.

SAMPLE SIZE	PROFILE / TUBE COUNT
500 x 906 mm	12
HEAT OUTPUT $\Delta T30 / 50 / 60$	WEIGHT
184 / 340 / 423 W	8.96 kg
WATER VOLUME	MAX. PRESSURE
2.79 L	4 BAR
ELECTRIC OPERATION	FINISH
Compatible	RAL 9016, RAL 7016

Technical values refer to the selected sample size. Contact our technical team for project-specific dimensions and capacity.

04 / 10

COMPACT RADIATOR

Nova

Hygienic, minimal and highly efficient.

Its easy-clean single-row horizontal surface, low water volume and broad size range suit residential, villa and hotel projects.

SAMPLE SIZE

609 x 500 mm

PROFILE / TUBE COUNT

8

HEAT OUTPUT $\Delta T30 / 50 / 60$

187 / 342 / 424 W

WEIGHT

10.00 kg

WATER VOLUME
